Stormy

Kathy Heideman

You are the wind, stormy
You're free to be free
You are the wind, stormy
Come whisper 'round me

I felt you wild, stormy
Now gentle you are
I felt you wild, stormy
Please don't drift too far

No one can hold you
You die when they try
Reach me with your breath
Don't blow right on by

Just for this night, stormy
Stay, rest from your strife
Just for this night, stormy
Oh, touch me with life

No one can hold you
You die when they try
Reach me with your breath
Don't blow right on by

Just for this night, stormy
Stay, rest from your strife
Just for this night, stormy
Oh, touch me with life
