

Walk with Me (feat. KuÄ•ka)

Cosmo's Midnight

(Verse 1)

Known you since I was young basically
Through together, knew me differently
It's only when I fell to pieces but,
we have moved on from that
Now the past and futures weave together
Easy times that I barely remember
Wishing that rejoice is here forever
cause I understand you better now(Chorus 2x)

I just got a text from you, boy
Told me that you're waiting outside
Don't think you're around for goodbye
It felt like I went back in time(Verse 2)
Realise our similarities
Similar opinions and beliefs
Boy, you kept me waiting, slow release
Thought you had changed your mind
Distance made me wish we had stayed together
Hold on to nostalgia cause I never
Liked it at the time, I misremember
but I understand you better now(Chorus 2x)

I just got a text from you, boy
Told me that you're waiting outside
Don't think you're around for goodbye
It felt like I went back in time(Bridge)
I understand you better now, oh
Still get under my skin somehowBring me back
Reminding me of your different way of seeing, seeing things
Like your stupid mistakes I choose to regret
are breeding insecurities(Chorus 3x)
I just got a text from you, boy
Told me that you're waiting outside
Don't think you're around for goodbye
It felt like I went back in time
