

Drop Dead Legs

Van Halen

Advisory - the following lyrics contain explicit language:

Drop dead legs, pretty smile
Hurts my head, gets me wild
Dig that steam, giant butt
Makes me scream, I get nuh-nuh-nothing
But the shakes over you
And nothing else could ever do You know that you want it
I know what it is
You know that you want it, baby
When the night is through, will I still be loving you? Dig those moves, vampire
Set me loose, get it higher
Throw my rope, loop-de-loop
Nice white teeth, betty boop
Set it cool real heavy
I ain't fooled, getting ready Baby, you know that you want it
I know what it is
You know that you want it, baby
When the night is through, will I still be loving you?
