# So Used To Loving You

## Webb Pierce

So used to loving you I can't believe we're through
Nobody else will do since we're apart
I tried so hard to find someone to ease my mind
But they're just not my kind so used to lovin' youDarlin' if you ever change you may still share my name
Don't hang your head in shame forget those mistakes you've made
No one lives a perfect life so forget your foolish pride
And put your fears aside then come back to me
So used to loving you...
