People Folk

Tunng

I saw the sun
I saw the sun
I saw the sun fall on everyone
I saw the sun
And the people had to run

I see the stars
I see the stars
I see the stars trying to reach my heart
I see the stars
And the people the way they are

I felt the flame
I felt the flame
I told my friends to watch their aim
I felt the flame
All the people felt the same

I saw her eyes
I saw her eyes
I saw her eyes sparkle in my mind
I saw her eyes
And the people all got high

I heard the sound
I heard the sound
I heard the sound in the beauty ground
I heard the sound
And the people gathered round

I touched the lips
I touched the lips
I touched the lips in the casino chips
I touched the lips
And the people fell in love?

I saw the sun
I saw the sun
I saw the sun fall on everyone
I saw the sun

And the people had to run
