

No Regrets

[Gary Allan](#)

She's been gone about three years
It's been a long road and a million tears
I'm movin' slow but I'm movin' on The sweetest memories still remain
The laughter we had and the love that we made
Every night I go to bed alone With no regrets and piece of mind
Lived so much in so little time
I'm so glad when she was here
She was mine From the day we met
To the night she left
I loved her, no regrets Well, time and fate can't be controlled
You play the hand that you're dealt
And the dice that you rolled
And who am i to question God anyway Well, these days when I look back
I know I'm blessed to be loved like that
I still miss her everyday With no regrets and piece of mind
Lived so much in so little time
I'm so glad when she was here
She was mine From the day we met
To the night she left
I loved her, no regrets From the day we met
To the night she left
I loved her, no regrets No regrets
I loved her with no regrets
