

You Will Be There

[Jeremy Camp](#)

And I begin the day
With the faith You fashion my ways
And I cannot escape for Your hand it leads
Your right hand holds me When I wake You will be there
When the sun goes down in the night
You will be there My life has been ordained
You have formed this very frame
And I am fearfully made
For I was made in that secret place When I wake You will be there
When the sun goes down in the night
You will be there When I wake You will be there
When the sun goes down in the night
You will be there How precious are Your thoughts all over me
Oh, more than the sands of the sea When I wake You will be there
When the sun goes down in the night
You will be there When I wake You will be there
When the sun goes down in the night
You will be there When I wake You will be there
When the sun goes down in the night
You will be there, You will be there
