You Will Be There

Jeremy Camp

And I begin the day With the faith You fashion my ways And I cannot escape for Your hand it leads Your right hand holds meWhen I wake You will be there When the sun goes down in the night You will be thereMy life has been ordained You have formed this very frame And I am fearfully made For I was made in that secret placeWhen I wake You will be there When the sun goes down in the night You will be thereWhen I wake You will be there When the sun goes down in the night You will be there How precious are Your thoughts all over me Oh, more than the sands of the seaWhen I wake You will be there When the sun goes down in the night You will be thereWhen I wake You will be there When the sun goes down in the night You will be thereWhen I wake You will be there When the sun goes down in the night You will be there, You will be there
