

# Over The Mountains

Bosson

Anywhere in the world I go for you  
I've made up my mind, I've packed my bags  
I'm not returning home  
Until someone will give me reason too  
I lock the door and take a breath  
I'm ready to let go, I know you're somewhere out there too  
There's only one thing for me to do and I go  
Over the mountains and over the sea  
To find a heart that belongs to me  
And anywhere in the world I go  
Anywhere till I find you  
I run through the valleys, I run through the fields  
I'd do anything I am hard to please  
And anywhere in the world I go  
Anywhere till I find you  
I fly like the wind, I don't know where  
My heart will lead the way  
I need someone to love and hold on to  
But the road is long I've had my doubts  
But nothing lets me down  
'Cause I know you're somewhere out there too  
Waiting for me to get to you and I go  
Over the mountains and over the sea  
To find a heart that belongs to me  
And anywhere in the world I go  
Anywhere till I find you  
I run through the valleys, I run through the fields  
I'd do anything I am hard to please  
Anywhere in the world I go  
Anywhere in the world I go for you  
It doesn't matter what the time will tell  
'Cause I will be here waiting  
For you, for you and me  
It doesn't matter what the others say  
'Cause I will keep on searching  
And I go and I go and I go and I go  
Over the mountains and over the sea  
To find a heart that belongs to me  
And anywhere in the world I go

Anywhere till I find you  
I run through the valleys, I run through the fields  
I'd do anything I am hard to please  
And anywhere in the world I go  
Anywhere till I find you  
Over the mountains and over the sea  
To find a heart that belongs to me  
And anywhere in the world I go  
Anywhere till I find you  
I run through the valleys, I run through the fields  
I'd do anything I am hard to please  
And anywhere in the world I go  
Anywhere till I find you
