

Milk and Cookies

[Melanie Martinez](#)

1, 2, melatonin is coming for you
3, 4, baby, won't you lock the door?
5, 6, I'm done with it
7, 8, it's getting late, so close your eyes, sleep the days
Hush, little baby, drink your spoiled milk
I'm f*cking crazy, need my prescription filled
Do you like my cookies? They're made just for you
A little bit of sugar, but lots of poison, too
Ashes, ashes, time to go down
Ooh, honey, do you want me now?
Can't take it anymore, need to put you to bed
Sing you a lullaby where you die at the end
9, 10, never want to see you again
11, 12, I pull off black so well
Sh*t behind the curtain that I'm sick of sugarcoatin'
Next time you're alone, think fast when you grab the phone
Ashes, ashes, time to go down
Ooh, honey, do you want me now?
Can't take it anymore, need to put you to bed
Sing you a lullaby where you die at the end
Ashes, ashes, time to go down
Ooh, honey, do you want me now?
Can't take it anymore, need to put you to bed
Sing you a lullaby where you die at the end
