

Demons and Angels

Den of Ashes

Something in your eyes
Carries through you day
The demons in your dreams they say

Something that you want
Is something you can't have
It sifts right through your hands the Sandman

Late at night
In your dreams your demons play
In the morning light
The angels chase them far away

Something that she said
It lingers in your head
And it never goes away

Take another drink
It'll clear your mind to think
That somewhere deep inside you're brave

Late at night
In your dreams your demons play
in the morning light
The angels chase them far away

Pictures on the wall
They'll never miss you at all
The demons calling you to play

Gun in your hand
I hope they'll understand
You never saw the light of day again

In the night
In your dreams your demons play
in the morning light
the angels chase them far away

In the night

In your dreams your demons play
in the morning light
All of your dreams they went away

Far away
Far away
Far away
