

# Summertime

## The Busters

Summertime is back in town  
Time to get your scooter out  
Winter days so far away  
Take you for ride

Show them all your custom bits  
Get your chromate gats polished  
Seaside run is back again  
And you will meet all your friends

Your scooter looks just like a mess  
Although you try your very best  
Somebody stole your pork pie hat  
Your girlfriend moved to Switzerland  
I bet she's got a new boyfriend

Soundsystems are back in town  
Blasting out the sharpest sound  
Club events and all-nighters  
Getting dressed up really cool  
Having fun and getting pissed  
Is what you have always missed  
Take your chance and join the fun
