

Young Thugs (feat. Hollaway & Popeye)

C-Murder

(talking)(popeye)

Don't real niggas die, in god we return,

but respect the real though, feel thatChorus: Young Thugs

You better watch your back before you get yourself mugged

'Cause niggas 'round here ain't gon' show u no love

Them niggas ain't no friend to you

All them niggas wanna do is put a end to you(verse 1: C-Murder)

Look at the future, look into the eyes of the men that might shoot ya

Even your best friend might do ya

Why take a chance on a man just because he shake your hand

Them same niggas kill for a grand and i don't understand

All that friendship shit is played out

You better wake up before you be layed out

I know u smoke weed with'em and you trust'em like your brother

But he ain't your brother

Nigga listen to your mother

You walk around like you big and bad nigga

If you was in jail you might be fag nigga

How can i love you, you don't love yourself

You play the game raw fool and its bad for your health(chorus) (2x)(verse 2: Hollaway of the GC's)

Now whats a friend what a patner

How do tell who's an imposter

A nigga you see rarely could be diggin down your bitch daily,
it scares me

My little brothers in that situation

Ther's clowns hangin' round because there's paper in this occupationI done warned ya, the same one you tote
wit'

Sell your little dope wit'

Or get your fuckin' throat slit

Wanna be a hustler nigga? holla at me, there's rules to the game

First of all don't FUCK wit' the lame

I used to hit the block, glock cock stone in my matchbox

Hollerin' at them hoes

Pullin' flights on po-pos

But now im Hollaway

With the GC's until my diein' day

There's freedom on the streets if you cherish it try to stay

(chorus) (2x)(verse 3: Popeye)

Think about when I stood that may be left when i was foldin' my few

Just tryin' to see who lyin' me when i was told that i knew
Boldin' my crew between the edge of my future with no return
On any hell-a-heart in the flesh but no concern, burn
Rainy nights and waterfalls
To walk away on a date my daughter call
Y'all tryin' make a way to slaughter y'all
Even though we held up rukus before the battle
Made it through pistol poppin' unlockin' i saw your shadow standin'
next to me wit just a clip
Flallin' beside me couldn't resist to flip
You held me down but yet we missed a ship
Reachin' out abusin' my purpose to guide the night crew
Notice that I'm a part of your blood and what i might do
(chorus) (4x)
