Absolute Zero

Hologram

Absolute zero, last child in a frozen land
He's a nuclear hero, last hope for human kindIt's cold in the future in every single way
It's cold in the future and it starts todayAbsolute zero, dead souls and their broken bones
We were six billion egos, fighting out with suicide bombsIt's cold in the future in every single way
It's cold in the future and it starts todayAbsolute zero
Absolute zeroHalf-broken radio keeps playing the same old song
It's a funeral tangoIt's dark in the future in every single way
It's cold in the future and it starts todayAbsolute zero
Absolute zero
