Trust Yourself

Brendon Small

(Olivia Newton-John)
I need to tell the truth
I can't lie anymore
I need to do what's right
I know that's what my life is for
I can't be quiet anymore
About what I'm suppose to do
I need to tell the truth
And do what's right by you
I need to speak my mind
And let my heart run free
Your pain will heal with time
And one day you'll thank me
And as I follow my dream
And there is no room for you
Just know there was no scheme
It's just what I had to do
Trust yourself--you know all the answers
Trust yourself--you know what is right
Trust yourself--they're all there inside you
They've been there forever--just show them some light
Sometimes the truth brings pain
But broken dreams regrow
Not in the same old way

But change is life you know
And as I move on
To start my song anew
Please understand my need
To do what I have to do
Trust yourself--you know all the answers
Trust yourself--you know what is right
Trust yourself--they're all there inside you
They've been there forever--just show them some light
And as life goes on
Can we still be friends?
Don't let this circumstance
Cause our friendship to end
Trust yourself--you know all the answers

Trust yourself--you know what is right
Trust yourself--they're all there inside you
They've been there forever--just show them some light
I need to tell you the truth
I need to speak my mind
Sometimes the truth brings pain
Your pain will heal in time
