Must Be Nice

Lyfe

1st Verse:
Must be nice
Having someone who understands the life you live
Must be nice
Having someone who's slow to take and quick to give
Must be nice
Having someone who sticks around when the rough times get thick
someone who's smile is bright enough to make the projects feel like a mansion
Must be nice
Having someone who loves you despite your faults
Must be nice
Having someone who talks the talk but also walks the walk
Must be nice
Having someone who understands that a thug has feelings too
someone who loves you for sho'
you just remember to never let 'em goChorus:
'cause Even when your hustling days are gone
She'll be by your side still holding on and Even when those 20's stop spinning
and all those gold-digging women disappear
she'll still be here2nd Verse:
Must be nice
Having someone you can come home to from a long day of work
Must be nice
Having someone you don't have to show they know exactly where it hurts
Must be nice
Having someone who trusts you despite what they've heard
Someone as mighty as a lion but still as gentle as a bluebird
Must be nice
Having someone you don't have to tell when you don't want to be alone
Must be nice
Having someone you can grow old with until God calls y'all home
Must be nice
Having someone who understands that a thug has feelings too
someone who loves you for sho'you'll never let 'em goChorus (2x)
