Celestica

Crystal Castles

As we fall into sequence
And we're eating our young
Remain silent and still for modestyWhen the splints have been broken
And they can't help you now
Do you pray with your eyes closed naturally?Follow me into nowhere
Woven with the utmost careIf I'm lost please don't find me
If I jump let me sink
We descended from no one
With a winkWhen it's cold outside, hold me
Don't hold me
When I choose to rest my eyes, coax me
Don't coax meWhen it's cold outside, hold me
Don't hold me
When I choose to rest my eyes, coax me
Don't coax meFollow me into nowhere
Woven with the utmost careHave they cleansed you with chloride
And scrubbed behind the knees?
Has your body been hollowed by the breeze?
