

# Something's Happening

## The Hoppers

Something is happening  
And it started happening when you walked by  
Something is happening  
And it's changing everything do you know why? As soon as you started to kiss me  
Something new suddenly hit me  
Love walked over, it's always happening  
The same sort of things to others too  
Something is happening to me  
And I only hope the same thing is happening to you Something is happening  
Exiting, bewildering you must know why  
Something is happening  
I can't think of anything but you and I What begins, these happy notions  
You do things to my emotions  
I can't help whatever is happening  
There's nothing about it I can do  
Something is happening to me  
And I only hope the same thing is happening to you What begins, these happy notions  
You do things to my emotions  
I can't help whatever is happening  
There's nothing about it I can do  
Something is happening to me  
And I only hope the same thing is happening to you What begins, these happy notions  
You do things to my emotions  
I can't help whatever is happening  
There's nothing about it I can do  
Something is happening to me  
And I only hope the same thing is happening to you
