

Something's Happening

The Hoppers

Something is happening
And it started happening when you walked by
Something is happening
And it's changing everything do you know why? As soon as you started to kiss me
Something new suddenly hit me
Love walked over, it's always happening
The same sort of things to others too
Something is happening to me
And I only hope the same thing is happening to you Something is happening
Exiting, bewildering you must know why
Something is happening
I can't think of anything but you and I What begins, these happy notions
You do things to my emotions
I can't help whatever is happening
There's nothing about it I can do
Something is happening to me
And I only hope the same thing is happening to you What begins, these happy notions
You do things to my emotions
I can't help whatever is happening
There's nothing about it I can do
Something is happening to me
And I only hope the same thing is happening to you What begins, these happy notions
You do things to my emotions
I can't help whatever is happening
There's nothing about it I can do
Something is happening to me
And I only hope the same thing is happening to you
