

# Paradise

[Aldo Nova](#)

There's a place not far from here  
With a different atmosphere  
It's a world where there's no darkness Close your eyes and you will see  
It's a world of fantasy  
Let's leave reality behind us 'Cause Paradise - I'll take you there, whoa, yeah  
Just close your eyes and have no fear  
'Cause Paradise is here, yeah There's a place not far from here  
With a different atmosphere  
Let's leave reality behind us 'Cause Paradise - I'll take you there, whoa, yeah  
Just close your eyes and have no fear  
'Cause Paradise is here
