

Zombies Are Scumbags

As Summer Dies

Dream of silence

On the water

Falling faster

Sinking under

All the hate in me

And rage I suffer from consoles me?

It only makes me fall

There's no help I can call

See the best there is in me

I hate it all, I hate it all

Fell down

Among this

It amplifies the feeling

I'll believe in anything that shows the pain that ends this dream

I breathe out, I breathe in

I can't arrest the bleeding

Everything pours out of my heart

Suffocating me

Tonight, something isn't quite right

I hear you

I feel you

In my mind

And my heart starts to race

But I can't see your face

Cuz there's blood in my eyes

And the sun starts to rise

Fell down

Among this

It amplifies the feeling

I'll believe in anything that shows the pain that ends this dream

I breathe out, I breathe in

I can't arrest the bleeding

Everything pours out of my heart

Suffocating me

(screaming) I BLEED, I BLEED

I need it all, I need it all, I need it all
Fell down
Among this
It amplifies the feeling
Iâ€™ll believe in anything that shows the pain that ends this dream
I breathe out, I breathe in
I canâ€™t arrest the bleeding
Everything pours out of my heart
Suffocating me
Just end it (x6)
Suffocating me
Just end it (x6)
Suffocating me
