

Take Me Back

[Sarah Jarosz](#)

Take me back in time again, stay with me like you did then
Take me as you find me here, take me now, feel me near
Love like I never knew... before
Someday we'll fade and be ignored
Nothing lasts forever anymore...
Wrap me up in quiet sense, take me lost, make me found
Hold me silent in the night, say I'm wrong, make me right
Love like I never knew... before
Someday we'll fade and be ignored
Slippin' through my fingers, wantin' more
Hangin' onto every word, whispered as the morning stirs
