Right At the Core

[Bilal](#)

Right at the core, you got me right at the core
Its the part of love and war
You shot me down
Straight to the heart
Right at the core, you feel the door
Into forever more, and moreAt the core, got you at the core
You try to hate me, but your heart is still there
So much more, so much more, so much more
There in your core
Wont take it back, ease up for more
But your heart cant cool, cant cool, noDeep down inside, youre be right the core
You try to fake, but you just cant go, no,
Theres no hope, noRight at the core, you got me right at the core
Its the part of love and war
You shot me down
Straight to the heart
Right at the core, you got me right at the core.
