

# Arrow

## Husky

Down in the heartland where we walked alone  
The river your mirror the mountain my throne  
Planted a seed and my seed it did grow  
And days are like arrows through hearts overgrown  
Fly like an arrow  
Glide through the pouring rain  
Move like a shadow  
Your light describes my way  
Mary lights a fire with a bible  
Takes me down to the river  
I wonder if I am ready  
I ain't never been ready  
Flying straight like an arrow  
Time it told me to follow  
You never know when it's coming  
When it's coming for you  
Go sister go if you'll catch it you'll know  
I dreamt of a starling with wings made of stone  
And days are like arrows to hearts overgrown  
Mary lights a fire with a bible  
Takes me down to the river  
I wonder if I am ready  
I ain't never been ready  
Flying straight like an arrow  
Time it told me to follow  
You never know when it's coming  
You never know when it's going  
You never know when it's coming  
When it's coming for you
