

# Promise Not to Tell

## Golden Bear

Hold the night  
And kill the lights  
And hold on to the mystery

Hide your life  
And close the blinds  
But don't hide your sincerity

If I could only change  
The things they wouldn't be this way  
But they're never gonna tell me  
No they're never gonna tell me

What it is they want me for  
Why these goods are waiting at my door  
'Cause I can't hold them off  
If I'm still holdin' on

Here we are  
And come that far  
It's hard to run without remembering

How we pretend  
We're closing in  
On the doors we're always following

If I could only change  
The things they wouldn't be this way  
But they're never gonna tell me  
No they're never gonna tell me

What it is they want me for  
Why these goods are waiting at my door  
'Cause I can't hold them off  
If I'm still holdin' on
