Pulse

Covenant

I'm falling out of cars
Don't know when I'll hit the ground
Hold me when I fall
Headlights in my faceMy body's full of scars
Words are lost and won't be found
Stay until I'm gone
Stumbling on my kneesI'm dancing in the dark
Shrinking cities feel the sound
Hear the silent hum
Searchlights in the skiesI'm blinded by the stars
There is darkness all around
Hold me when I cry
Those were all my daysI'm falling out of cars
Hanging on the windscreen
I'm blinded by the headlights
I'm killing groundI'm dancing in the dark
And stumbling on the highway
I'm guided by the city light
I'm lost and foundI'm falling out of cars
Don't know when I'll hit the ground
Hold me when I fall
Headlights in my faceI'm dancing in the dark
Shrinking cities feel the sound
Hear the distant hum
There's searchlights in my eyesI never took the time
I should have told you then
I never found the time
I'm falling out of carsI'm falling out of cars
Hanging on the windscreen
I'm blinded by the headlights
I'm killing groundI'm dancing in the dark
And stumbling on the highway
I'm guided by the city light
I'm lost and foundI'm falling out of cars
Hanging on the windscreen
I'm blinded by the headlights
I'm killing groundI'm falling out of cars
Hanging on the windscreen
I'm blinded by the headlights

I'm killing groundI'm falling out of cars
Hanging on the windscreen
I'm blinded by the headlights
I'm killing groundI'm dancing in the dark
And stumbling on the highway
I'm guided by the city light
I'm lost and found
