Through It All

Ben Speer

I get crazy hanging out
With my friends sometimes
And I act moody
And I can't remember why
But you always take me as I am
Somehow understand
If I get lost in what I'm doing
Baby, I just forget to call
I know you love me, love me through it all
I could be on the road to ruin
Beating my head against the wall
I know you love me, love me through it all
I get distracted
But I'll always be your girl
And I'm not flaky but there's so many things
Going on in my little world, yeah
But you always take me as I am
Somehow understand
If I get lost in what I'm doing
Baby, I just forget to call
I know you love me, love me through it all
I could be on the road to ruin

Beating my head against the wall
I know you love me, love me through it all
You're always there when I'm feeling alone
Right by my side, oh
And when I'm with you it feels like I'm home
It just feels right
I get lost in what I'm doing
Baby, I just forget to call
I know you love me, love me through it all
I could be on the road to ruin
Beating my head against the wall
I know you love me, love me through it all
If I get lost in what I'm doing
And my back's against the wall
I know you love me, love me through it all
I could be on the road to ruin

Beating my head against the wall
I know you love me, love me through it all
Through it all
Through it all
