Hello World

Kid Ink

Hello baby, guess who's back? (Yeah)
It's been a minute (I know you miss me, yeah)
Egh. Kid Ink
I saidHello baby, guess who back? It's been a minute
I been fiending for your love like crack, from the beginning
When I didn't know you quite like that, knew we would hit it off
Now we somewhere getting lost, rockstars with no guitars
You ain't gotta wait no more, I got what you came for
I said fucking with me promise that you'll wake up with a hangover
Champagne, we celebrating for every day that we never ate
It's evident I'll never change, gonna be this way forever baby
Echelon keep elevating, bunch of bitches, hella haters
Add them up while I just keep it 100, exclamated
Don't blame me, the pressure made me
Treat this game like Wrestlemania
Off top of the ropes, so high hit the floor likeHello world (what up?), know it's been a minute
Hello world (what up?), made it out the city
Hello world, been all around the map saying
"Hello baby, guess who back? I know you missed me"Hello world (what up?), know it's been a minute
Hello world (what up?), made it out the city
Hello world, been all around the map saying
"Hello baby, guess who back? I know you missed me"Hold it baby just like that, I need a picture cuz
Ain't nobody gonna believe that I was with you now
Bizzack in the room, where we beez at in the party
About to kill it with one shot, you dearly departed
T-T-Take off, first class. Still ducking the po-po
All this money, I still get it for the low-low
World been stone cold so I stay burning one
Roll up, all night. I been running from the sun
Trying to bring the trophy back, to the city
Whole team going "rah rah rah", representing
We on, everything is a go, never take a T.O. (here we go)
I know you missed meHello world (what up?), know it's been a minute
Hello world (what up?), made it out the city
Hello world, been all around the map saying
"Hello baby, guess who back? I know you missed me"Hello world (what up?), know it's been a minute
Hello world (what up?), made it out the city
Hello world, been all around the map saying
"Hello baby, guess who back? I know you missed me"Hello baby guess who back? (Guess who's back)

Yeah I know you missed me
Made it out the city and the rest is all historyHello world (what up?)
Hello world (what up?)
Hello world (I said), been all around the map saying
"Hello baby guess who back? I know you missed me"
Hello world (what up?)
Hello world (what up?)
Hello world
Hello baby, guess who back?
