

Pacifier

Nothingface

One time through the door, and on the floor

All I wanna be is just a little whore

All I wanna do what I wanna do to myself, I cut my itty bitty self

I can't think about you and what you wanna do, I should, I better stop myself cause you could be like that old man that said, and this is what he said to me: I don't wanna feel this way anymore, cause I cannot take all this
wont you save me I don't need this shit to end this endless story, take my savior take my pacifier Believe more in
a core I've stored everything you said

Put my hell to bed now again, I dream bad ones as it seems this is why I cannot redeem

What I do everything I do is just for blame's sake, anyways and this is what he said to me, and anyway, and this
is what he said to me, what he said to me
