Beer

Saron Gas

i wish you were a beer
then i could drink you up
i wish u were not here
with my cum in your mouth
i wish you weren't so queer
your taste lock me up

since when were you our lord
we're all so very bored
since when were you our lord
we're all so very bored

i wish you were a beer
the thirst you want to drink
you wish i wasn't here
your scared because i think
you wish i wasn't here
cuz im your missing link

since when were you our lord
we're all so very bored
since when were you our lord
were all so very bored

i wish you were a beer
then i could drink you up
you wish i were not here
cuz i can beat you up
i wish you weren't so queer
with my cum in your mouth

since when were you our lord
we're all so very bored (4x)
