So So Fresh

Nico Vega

It's just a matter of time before you notice the way I tip my hat.
I think it would be right for you to try it on before you take it back.You could call me lady or you could call me something else like that.
I'm feeling kind of warm maybe I am blushing.
It's the way I tip my hat.Chorus:
Your so so fresh even when you drop it you do it like a man. and now your just a boy but I can hardly tell but no one really cared.Im always in the way. Maybe it's on purpose so tell me where to go. Get me fired up 'cause I could drink some water so show me what you know.You could call me lady or you could call me something els like that. I'm feeling kind of warm maybe I am blushing. It's the way i tip my hat.ChorusIn my limbs, in my limbs. I could feel it in my limbs. There's a tingle in my fingertips. In my bones, in my bones i could feel it in my bones. There's a trigger deep inside up in.Chorus x2
