

Coffee

Yuna

Id rather stay inside than being out tonight
Just sipping coffee and nothing to look forward to
Savoring my solitude
And no one will ever know you the way I do
In high definition Im dreamin of you
In my disposition Im losing my cool
With my everything Id give anything to be with you
And I will try my best to let it subside
Im letting go without taking any part of
Something what my heart truly wants
And no one will ever see you the way I do
In high definition Im dreamin of you
In my disposition Im losing my cool
With my everything Id give anything to be with you
