

Messin' Around

Freddie Keppard

If it's pure and it's simple
Does it make it right?
Like I always said child
Life is hardly black and white
When you're(Messin')
Messin' around
(Messin')
Messin' around Girl slide up to you
Lightening bolts in her eyes
You know her actions
Speak louder than words
You know that it's hard to fight(Messin')
Messin' around
(Messin')
Messin' around So keep coming on baby
Keep coming on strong
Maybe you can save me
But before too long We'll be coming on baby
We'll be coming on strong
My dead eyes will open to light in this world
Before too long If it's pure and it's simple
Does it make it right?
Like I always said my child
Life is hardly black and white(Messin')
Messin' around
(Messin')
Messin' around So keep coming on baby
Keep coming on strong
Maybe you can save me
But before too long We'll be coming on baby
We'll be coming on strong
My dead eyes will open to light in this world
Before too long So keep coming on baby
Keep coming on strong
Maybe you can save me
But before too long We'll be coming on baby
We'll be coming on strong
My dead eyes will open to light in this world
Before too long(Messin')

Messin' around
(Messin')
Messin' around
