

# Hands up in the Air

## Celestina

Ooh baby

Ooh baby

We gonna party ... all night ... into the light

Hands up in the air, air, air, air, air

All night into the light

VERSE 1  
Up jumps the boogie to the beat (Let's rock)

Riddy Ragga Boom nation new heat (On lock)

Yeeeeah Tick tock we don't stop

Yeeeeah yup watch me riddy rock

Watch me riddy rock, riddy rock

Yeeeeah Tick tock we don't stop

Knock, knock.... New Jenny on the block

A few more minutes 'til we blow up the spot  
Put me in rotation on the radio

(vevo) play my video

Only got a couple bills but still climbing up the hills

Me little light gonna shine can you feel me though  
Drummer boy and a mic, Here comes the Spot light

Marley Bob everything's gonna be alright

PRE Hook  
From the back to the front we go

In the twilight baby we glow

Celebrating, vibrating, rump shaking earthquaking

Glass breaking breaking, Give em a show  
From the back to the front we go

In the twilight baby we glow

We going up, Turnin' up, Blowing up, Moving up

Going up through the ceiling we go

CHORUS  
We gonna party all night into the light

We gonna party all night into the light

Hands up in the air, air, air, air, air

All night into the light

VERSE 2  
We gonna party all night into the light

The other day I was stressing

Said dear Lord still waiting for the blessing

(Yeahh) Change your mind, (yeah) Time to grind

Bout to cross that river keep pressing

Taking over Even if Rover don't bark

I shine, I rise, I'm riding Babar

Through me scars to the Stars Oh Maya,

got oil oil oil pumping, I'm fire

got oil wells pumping in my back yard.

PRECHORUSBRIDGE:  
Hands Up In the Air, air, air, air, air

Ooh Baby  
Fist pump to the rhythm
