

Man In Your Life

Jack Ingram

Just a little bit closer, a little closer still
If you let it take you, baby it will
Baby, I can feel it, you can feel it too
Lettin' go is all we have to do
It's just me and you Tonight I'm gonna be your lover
Tonight I'm gonna be your friend
Baby, don't worry 'bout forever
'Cause this ain't gonna end I wanna take your body, baby
I wanna take your soul so high
I wanna steal your heart, give you mine
I wanna be the man in your life It only takes one moment, only takes one kiss
You're the only one who makes me feel like this
Baby, it's magic we can disappear
Make the world stop turning, baby come here
Won't you just come here? Tonight I'm gonna be your lover
Tonight I'm gonna be your friend
Baby, don't worry 'bout forever
'Cause this ain't gonna end I wanna take your body, baby
I wanna take your soul so high
Steal your heart, give you mine
I wanna be the man in your life Tonight I'm gonna be your lover
Tonight I'm gonna be your friend
Baby, don't worry 'bout forever
'Cause this ain't gonna end I wanna take your body, baby
I wanna take your soul so high
Steal your heart, give you mine
I wanna be the man in your life
Just wanna be the man in your life
Man in your life
