Wild World

Scott Ruth

I've seen fire cought by spark strech as fare as the ocean.
And all my colours are lost in the dark,I was thinking I could join'm.

Suffering in your eyes, you pearl.

Every knight I see the same old star,but the road below is changing.
After a while you loose who you are and you will never be the same.

Suffering in your eyes, you pearl

Musical intermezzo

Suffering in your eyes,you pearl.

I've been running out of sight,hoping death didn't need you.
Maybe I'm tired chaising time or maybe I've been death for years.
