Everybody We Know Does

Chase Rice

Everybody we know does
Not everybody throws their empties in a truck bed
Pours sweat off forty hours for pay check
Take it to the bank at five
Save a nickle spend a dime
I'm living it upNot everybody knows an outskirts sky glow
You'll turn it up sayin every word of friends and love
Not everybody likes a Friday night covered in dust
But everybody we know doesThat's what we do, that's what we love
That's how we were raised, how we grew up
Runs deep in our veins, way down in our blood
Everybody we know doesPut your boots to the ground 'till the sun goes down
Kill a couple on next 'till we come back around
Nah it ain't no big deal around here for us
Everybody we know doesNot everybody understands how we make it
Hold it together when we feel like breaking
Not everbody knows what we're made of
But everybody we know doesThat's what we do, that's what we love
That's how we were raised, how we grew up
Runs deep in our veins, way down in our blood
Everybody we know doesPut your boots to the ground 'till the sun goes down
Kill a couple on next 'till we come back around
Nah it ain't no big deal around here for us
Everybody we know does
Everybody we know doesNot everybody knows an outskirts sky glow
You'll turn it up sayin every word of friends and love
But everybody we know doesThat's what we do, that's what we love
That's how we were raised, how we grew up
Runs deep in our veins, way down in our blood
Everybody we know doesThat's what we do, that's what we love
That's how we were raised, how we grew up
Runs deep in our veins, way down in our blood
Everybody we know doesPut your boots to the ground 'till the sun goes down
Kill a couple on next 'till we come back around
Nah it ain't no big deal around here for us
Everybody we know does
Everybody we know does
