Back In Control (World War Tour 2010)

Sabaton

Sent to the islands to secure what is ours
Marching ashore in the cover of night
Hide until dawn and attack in the twilight
Shake them awake with the thunder of gunsOrders from the iron maiden, get the islands back
Failure will not be accepted, call for artillery strike, launch attackWe are Back in control, force them to surrender
Take what is ours, restore law and order
Back in control, push them further out to sea
Falklands in our hands, back under British reignPush them back further and out from the islands
Into our fleet that will stop their retreat
Mark their positions and call in the airforce
Harriers and Vulcans strikes at our commandOrders from the iron maiden, get the islands back
Failure will not be accepted, call for artillery strike, launch attackWe are Back in control, force them to surrender
Take what is ours, restore law and order
Back in control, push them further out to sea
Falklands in our hands, back under British reign
