Marks

Nicolas Jaar

every time that i touch you
it burns a little bit on my hand
every word you tell me
if hurts a little more then i can stand
when we kiss and i feel the pain
but i think i like it
baby hold me down have your way
goes to tell baby(chorus)
and i can't get enough
when you love me rough
go ahead and mark me up
yeah, you love me rough
huh, you know i can't get enough
when you love me rough
cos, you know i'm though
huh, you love me rough
and it always leaves a mark
my back got scratch marks
my neck got bite marks
because you bite hard
i love it girl
can't get enough of your love
you got the love that scars
but i like that
all love in my heart, girl i got marksand every night when we get to the fighting
girl we be breaking them chains in the room
you putting it on me
i get excited, wanna bite it
and i'm wounded that's why i'm in love with you
cos you know just what to do(chorus)???(chorus)
