Angels

Robin Thicke

All the things Ive done before this
They dont mean a thing
And all the words spoken before this
Wont be said again
Suddenly so much of me has
No need 2 pretend
Cause theres nothin like the truth
To bring her back to u
And everyone Ive met before this
Aint seen me with u

Angel My Angel Angel
Angel My Angel Angel

Youre the only one who knows what I go through
Sometime u feel it even more than me
And I dont know how I ever got by without u
Theres nothing like the truth
And Ive got nothin left 2 lose
And every night I thank the universe that I found u

Angel My Angel Angels
Angel My Angel Angels

And I dont have 2 wonder
What the world thinks about me
I know youre in my corner
Youre always surrounding me
With your love

And if we all explode
See we would never know
But I just hope the pieces of my soul
Reach out 2 u 2 find my angel

My Angels My Angels
Angels My Angels
My Angels
