# What If

## Paper Tongues

I need to know you're there
I need to know you care

All we had got strangely lost but then
You took a kiss from my lips again
We should stop
But we're heathens

I said chill but souls too close can't escape
The scent of taking what don't belong
To them
They need healing

What if
We start over right now
Come back together and break down
Emotions crying
Oh child I'm yours now

I don't know how you stop a wreck in the streets
They move to fast in the driver's seat
I just wish
We could find peace

We always skip the space and then we regret
That we don't know each other yet
Then we say
That were leaving

What if
We start over right now
Come back together and break down
Emotions crying
Oh child I'm yours now

What if
We start over right now
Come back together and break down
Emotions crying

Oh child I'm yours now

I need to know you're there

I need to know you care

I need to know you're there

What if
We start over right now
Come back together and break down
Emotions crying
Oh child I'm yours now

What if
We start over right now

What if
We start over right now

Now

What if
