Red Light Paradise

Savatage

You long for the touch of the metal man
But on nights like this any man would do
You're a lady of the night, a guardian of the light
It's burning hot in you, feel it burn inside you, yeahRed light paradise
Red light in paradise
Red light paradise
Red light paradise, ooh yeahHow long do you think you can carry on your wicked ways of love
Does it ever, ever bring you down?
Is this why you were made, for this you're getting paid
And you really like the foolin' around
Sometimes you feel like running but you never willRed light paradise
Red light paradise
Red light paradise
Red light in paradise, ooh yeah, yeah
