

# Red Light Paradise

## Savatage

You long for the touch of the metal man  
But on nights like this any man would do  
You're a lady of the night, a guardian of the light  
It's burning hot in you, feel it burn inside you, yeah  
Red light paradise  
Red light in paradise  
Red light paradise  
Red light paradise, ooh yeah  
How long do you think you can carry on your wicked ways of love  
Does it ever, ever bring you down?  
Is this why you were made, for this you're getting paid  
And you really like the foolin' around  
Sometimes you feel like running but you never will  
Red light paradise  
Red light paradise  
Red light in paradise, ooh yeah, yeah
