

# Ace of Hearts

## Average White Band

Just to be with you now  
is one thing I can't imagine  
'Cos the part you play today  
is the one that was missing  
And from where I stand right now  
I can see - so clearly  
that with every passing day  
I want more of this magic You're the ace of hearts  
number one in everything  
that comes to mind  
I think about it all the time  
how you won my heart - easy,  
Easy was the game you played -  
Easy 'cos you had it made So you see what you have done  
and there's no way to undo it  
I have only just begun  
to understand it  
Now on thing is clear to me  
there is love and there is real love  
and the only way to know  
is feel what I'm feeling You're the ace of hearts  
number one in everything  
that comes to mind  
I think about it all the time  
how you won my heart - easy  
Easy was the game you played -  
Easy 'cos you had it made
