## **Something In the Air**

## Lila McCann

Out on that river road

In a Pontiac lit up by the dashboard glow

They hold each other close

Under a harvest moon love is about to bloomThere's something in the air tonight

Something electric

The point where love ignites

The center of the heart

You never see it comin', no

There isn't a warning, no reason, not a sign

But you can feel it everywhere

There's something in the airEvery tender touch is fire

Every single sound is the sound of desire

Like an angel's choir

Blinded by the sudden flash

Together they'll strike the perfect matchThere's something in the air tonight

Something electric

The point where love ignites

The center of the heart

You never see it comin', no

There isn't a warning, no reason, not a sign

But you can feel it everywhere

There's something in the airA little luck

An act of fate

Brought them here

Now love can't waitThere's something in the air tonight

Something electric

The point where love ignites There's something in the air tonight

Something electric

The point where love ignites There's something in the air

There's something in the air tonight

There's something in the air tonight

You can feel it everywhere

There's something in the air

There's something in the air tonight

There's something in the air tonight

There's something in the air
