Nineteen

Old 97's

Nineteen Is not the age of reason. I didn't have a reason To setting you freeI've seen A lot of love go sour But that's not our love You see the problem was I was only nineteenYeah, I was only nineteen Finished up with high school Headed to a state school Wandered into youBig screen Kissing in a movie God, you moved me around We got seriously down But I was only nineteenAll I ever wanted to do Was lie around in bed with you I was only nineteen, I was only nineteen I was only nineteen, I was only nineteenI've seen A lot of love go bad now That's not how our affair Would've wound up I swear But I was only nineteenAll I ever wanted to do Was lie around in bed with you I was only nineteen, I was only nineteen I was only nineteen, I was only nineteen I was only nineteen, I was only nineteen I was only nineteen
