

Let's Get Abducted

Attila

[Verse 1]

Supernatural thoughts in my head
Confusing, intense, like I'm stuck in lead
But instead I'm living ahead the
It's unexplainable, I'm irrational
Without being a son of a bitch
But I'm on another dimension again
Do you see the bright light above?[Verse 2]
Who am I supposed to be and you know this
But who am I to judge?

[?] ... beings

That teaches you to judge[Pre-Chorus]

I didn't want to like you
But now I'm falling in love
The type of love you give me
It's feeling like the drugs[Chorus]

Let's get abducted

Let's get abducted

Let's get abducted[Verse 3]

Extraterrestrial life, as our life was taken
It's not, that we'd seem to run away and hide

They just want to rage hard
It's unexplainable, I'm irrational
Without being a son of a bitch
But I'm on another dimension again
Do you see the bright light above?[Refrain]

Pass the bottle, pass the blunt

Press repeat now we're all losing touch

Unexpected, unexplored

Go with the flow because I'm getting bored[Pre-Chorus]

I didn't want to like you
But now I'm falling in love
The type of love you give me
It's feeling like the drugs[Chorus]

Let's get abducted

Let's get abducted

Let's get abducted[Pre-Chorus]

I didn't want to like you
But now I'm falling in love

The type of love you give me
It's feeling like the drugs[Bridge]
Pass the bottle, pass the blunt
Press repeat now we're all losing touch
Unexpected, unexplored
Go with the flow because I'm getting bored
Pass the bottle, pass the blunt
Go with the flow[Chorus]
Let's get abducted
Let's get abducted
Let's get abducted[Outro]
Put me in your spaceship and take me somewhere new
Get me out of here
Riding something new
