Walking On Water

Ryan Cabrera

Look at you now, holdin' on by yourself
Baby, don't doubt, you're walkin' on water
Light in your eyes, flows from the inside
The beauty runs out, you're walkin' on water
You're everything you need, anything you wanna be
And everything you are is here right now
The sun'll fall down, the shadows come out
Don't fear the clouds, you're walkin' on water
You're everything you need, anything you wanna be
And everything you are is here right now
Life is a dream, whatever you want it to be
Don't let it slip away when love is here
You can call anytime at all
Or if you need someone to cushion the fall
You can lay me down
You're everything you need, anything you wanna be
Everything you are is here right now
Life is a dream, whatever you want it to be
Let it slip away when love is here
So lay me down
