

Mechanix

Metallica

Imagine you were at my station
And you brought your motor to me
You're a burner, yeah, a real motor car
Said you wanna get your motor filled
Made me shiver when I put it in
Pumping just won't do ya now luckily for you
Whoever thought you'd be better at turning
A screw than me, I do it for my life
Made my drive shaft crank
Made my pistons bulge
Made my ball bearing melt from the heat
We were shifting hard when we took off
Put tonight all four on the floor
When we hit top end you know it feels to slow
Said you wanna get your motor filled
Made me shiver when I put it in
Pumping just won't do ya now luckily for you
Whoever thought you'd be better at turning
A screw than me, I do it for my life
Made my drive shaft crank
Made my pistons bulge
Made my ball bearing melt from the heat
Now I'm giving you my research
And you know it's more than enough
Oh one more time ya know I'm in love
Said you wanna get your order filled
Made me shiver when I put it in
Pumping just won't do ya now luckily for you
Whoever thought you'd be better at turning
A screw than me, I do it for my life
Made my drive shaft crank
Made my pistons bulge
Made my ball bearing melt from the heat
