

# Confined (Kelly "Carnage" Cairns Remix)

## As I Lay Dying

That night I never came home  
Wandering souls captured my thoughts  
Emptiness filled my mind  
Urgency spoke her lies In the confines of these gray walls  
I watched them move together  
Taking me places I cannot remember, remember  
We have been poured out into this loveless bride How quickly I forget  
That this is meaningless?  
How quickly I forget  
That this is meaningless? In a world passing  
Through my fingers  
I still chase the wind How quickly I forget  
That this is meaningless?  
How quickly I forget  
That this is meaningless? What have  
I learned from yesterday?  
What have  
I learned from yesterday?
